Unabhängig, gewaltfrei, international

Greenpeace ist eine **internationale Umweltorganisation**, die sich weltweit für den **Erhalt der natürlichen Lebensgrundlagen von Menschen und Natur und Gerechtigkeit für alle Lebewesen in Gegenwart und Zukunft einsetzt**. Dabei geht sie Probleme hartnäckig an – auch gegen Widerstände und über längere Zeiträume.

Action against Private Jets at EBACE (European Business Aviation Convention & Exhibition) in Geneva

A hundred climate activists supporting Greenpeace, Stay Grounded, Extinction Rebellion, Scientist Rebellion and other climate movement groups from 17 countries have disrupted Europe's biggest private jets sales fair, the annual European Business Aviation Convention & Exhibition (EBACE) in Geneva, demanding a ban on private jets.

Extinction Rebellion

ABOUT US

Extinction Rebellion is a **network of people** who **care deeply about the future of our planet**, all human beings, and all living things. We are from diverse backgrounds and experiences but come together in Extinction Rebellion because we are living in a time of Climate and Nature Emergency with our eco-system and society at risk of collapse in the sixth mass extinction. **We aim to tackle this crisis head on, using campaigns and Nonviolent Direct Action to compel those in power to act.**

OUR STORY

Extinction Rebellion began in **2018** with a [Declaration of Rebellion](#) which led to 10,000 people protesting on the streets of London in 2019 and parliament declaring a [Climate Emergency](#). Since then, more than 40 countries and thousands of local authorities have followed suit. **XR is now a global movement**, made up of 1,080 national, regional and local groups of people **who want urgent action** to stop carbon emissions, and protect the natural world we love.

We believe ordinary people have the power to change things and that we are stronger together, since time and again governments have shown they cannot be trusted to act for us. Whether we play a role in supporting local campaigns, or join in big national protests, there are numerous different contributions people make to the movement.

OUR THREE DEMANDS: TELL THE TRUTH, ACT NOW, DECIDE TOGETHER

Climate Activists Detained at the “Oscars of the Insurance Industry”

Climate activists with the **Insure Our Survival** campaign disrupted the “**Oscars of the insurance industry**” **British Insurance Awards** at the Royal Albert Hall tonight, calling out the industry for profiting from climate chaos and genocide in Gaza, while pushing ordinary people to the brink.

Greta Thunberg: We won't let the rich sacrifice people and planet for their extreme lifestyles

Greta Thunberg condemns the rich elite's use of polluting private jets, as she marches with hundreds of protestors to Farnborough Airport to protest against its expansion plans and to call for a ban on private jets.

Extreme flooding 2024: XR UK's position

More than 1,000 homes across a huge swath of the North, Midlands and South were deluged with sewage-filled water, thousands more lost power, and 300 storm warnings were issued as Storm Henk battered the country.

Shell are climate criminals

Around 1:30 PM today (Wednesday 13 April, 2022) people started glueing themselves to points around Shell's London HQ, including the welcome desk, despite the heavy presence of police officers at the location.

Stay Grounded

WHO WE ARE

We are people, communities and organisations from around the world, **dealing with the multiple impacts of aviation:** Some of us are directly affected by airport infrastructure and the negative health impacts of pollution and noise from aircraft. Some of us are climate justice activists and young people who want to live our lives on a healthy planet. Some of us live in communities defending our homes, farmland and ecosystems from land grabbing for new airports, airport expansion, biofuel production or projects for offsetting aviation emissions. Some of us are academics, trade unionists and workers in the transport sector, as well as environmental and transport organisations from around the world, and from initiatives fostering alternative modes of transport such as railways.

Business as usual is not an option. We therefore stand for the following 13 steps to transform transport, society and the economy to be just and environmentally sound.

Fridays for Future: Das sind alle, die für unser Klima auf die Strasse gehen.

Die Klimastreik-Bewegung ist [international](#), überparteilich, unabhängig und dezentral organisiert. Mach mit und werde Teil unserer Bewegung!

Warum auf eine Zukunft bauen, die bald nicht mehr lebenswert sein wird? Unsere Antwort auf diese Frage ist der Klimastreik: Wir streiken für eine wirkungsvolle Politik, die dem Ausmaß der Klimakrise gerecht wird. Wir haben zehn Jahre, um unsere Ziele zu erreichen und müssen jetzt beginnen. Auf geht's!
